# Post-Graduate Year One

PHARMACY RESIDENCY PROGRAM

Amarillo, Texas

ASHP Accredited

## About the Program

Program participants will be actively involved in patient care, education and research. The completion of 12 rotations and one major project presentation is required. Residents may choose from the listed rotations or pursue alternative rotations if interested in an area outside those listed. Four 12-month pharmacy practice residency positions will be offered and residents will staff an average of four days per month.

This program will prepare pharmacist clinicians for:

- Adjunct faculty positions
- Patient care clinical pharmacist and/or leadership role in a healthcare delivery system
- PGY2 training in a chosen area

Residents will work as integrated members of a multidisciplinary healthcare team, engage in project and practice management and develop substantial leadership and problem-solving skills. It is expected that residents will exhibit a personal philosophy of professional growth and commitment.

Pharmacists completing this residency program will be competent practitioners of pharmaceutical care. They will be able to apply their knowledge to all types of projects and patient care situations, as well as educate patients, caregivers and other healthcare professionals on appropriate medication therapy.

## Required Rotations

*Ten, four-week rotations (unless otherwise noted)*

- Adult Medicine (six weeks)
- Antimicrobial Stewardship
- Critical Care (MICU, SICU, CCU)
- Clinical Floor Pharmacist
- Emergency Medicine
